Data overview

PropNo	PLOT #59 MALTA KALIA
City	Kalianeika Malta

Description

A very special piece of land in one of the most distinctive headland locations of the Mani.

15,294 m² of land, surrounded by nature and offering exceptional views in every direction. A place that feels genuinely remote and private — almost like your own little corner at the end of the world.

This is not a conventional building plot. At present, the land is not buildable, making it particularly interesting for someone looking for a private retreat, a place to spend time in natu-

re, or simply somewhere to escape from the everyday.

There are a few unfinished structures already on the property, which would require legalisation.

For someone looking for privacy, space and a truly distinctive setting, this is a rare opportunity.
